Attachments: Key Issues for May 7 NWEA Meeting JC Cmts_ac SJS_jw.doc

Allison, I was out in a meeting yesterday afternoon and didn't get in until late this morning, so just saw your briefing. It looks really good. I added another option for extension, but understand if it's too late to put it into the briefing.

I'm going to mention this option at the Manager's Meeting though, because as Jayne says below and as we all know, knowing whether we're going towards disapproval is key. If we are, then other than doing response to comments, there seems to be ample reasons showing why the State isn't meeting the additional forestry MMs esp with landslides, roads, and Type N streams.

Ex. 5 - Deliberative

I'd support a last big push for working together and regularly with the State while we're doing the Response to Comments. So perhaps the main reasons why we need an extension but would like to continue funding is that:

- 1) Need time to respond to comments
- 2) During this time, we're working together with the State on supporting them on their Riparian Rule and want to work with the more on all other outstanding issues through regular meetings and continued dialogue.
- 3) We intend to take action. EPA and NOAA staff and managers are heavily invested in this process and are not looking to delay actions.
- 4) We believe that continuing funding for FY14 will be good for the environment (Provide list of projects to be funded through DLCD and DEQ). However, we are prepared to being penalties in FY15 if there is not progress on the Riparian Rule and other outstanding issues. We believe this will also help the State move forward in its Riparian Rule.

Thanks - Jenny

I have to run to another meeting and won't be back by noon.

I did not get all the way through.

Thanks Jayne for the speedy review and helpful comments. Updated version attached to clarify things based on what you raised.

Everyone else: remember to please provide me with any edits by noon EDT tomorrow (Wed).

Thanks!

Looks great, Allison. See attached for my comments.

What is clear is that we need to know whether we are considering an approval or disapproval in order to determine a schedule or will need to put together two schedules—one for each option.

Subject: Draft Key Points and Consierations for Managers Meeting

All--

Had some time this morning to pull together the attached to help guide Managers discussion RE: NWEA meeting on the 7th. Welcome any comments (as well as specific EPA additions on FY14 funding, see yellow highlights).

Feedback by noon (EDT) on Wed. appreciated so have time to incorporate edits and send to managers prior to call.

Thanks,
Allison
